

# DUCK TOWN HOLY HAMTRAMCK

---

By James L. Murray

## The Book of Psalms Chapter 83 : verse 5

“For they have consulted together with one consent : they are confederate against thee:”

## The Book of Isaiah Chapter 30 verse : 1

“Woe to the rebellious children, saith the LORD, that take counsel, but not of me; and that cover with a covering, but not of my spirit, that they may add sin to sin:”

## **The Book of Philippians Chapter 2 : verse 7**

“But made himself of no reputation, and took upon him the form of a servant, and was made in the likeness of men:”

### **1. The Book of Isaiah Chapter 30 : verse 8**

“Now go, write it before them in a table, and note it in a book, that it may be for the time to come for ever and ever:”

### **2. The Book of Psalms Chapter 105 : verse 27**

“They shewed his signs among them, and wonders in the land of Ham.”

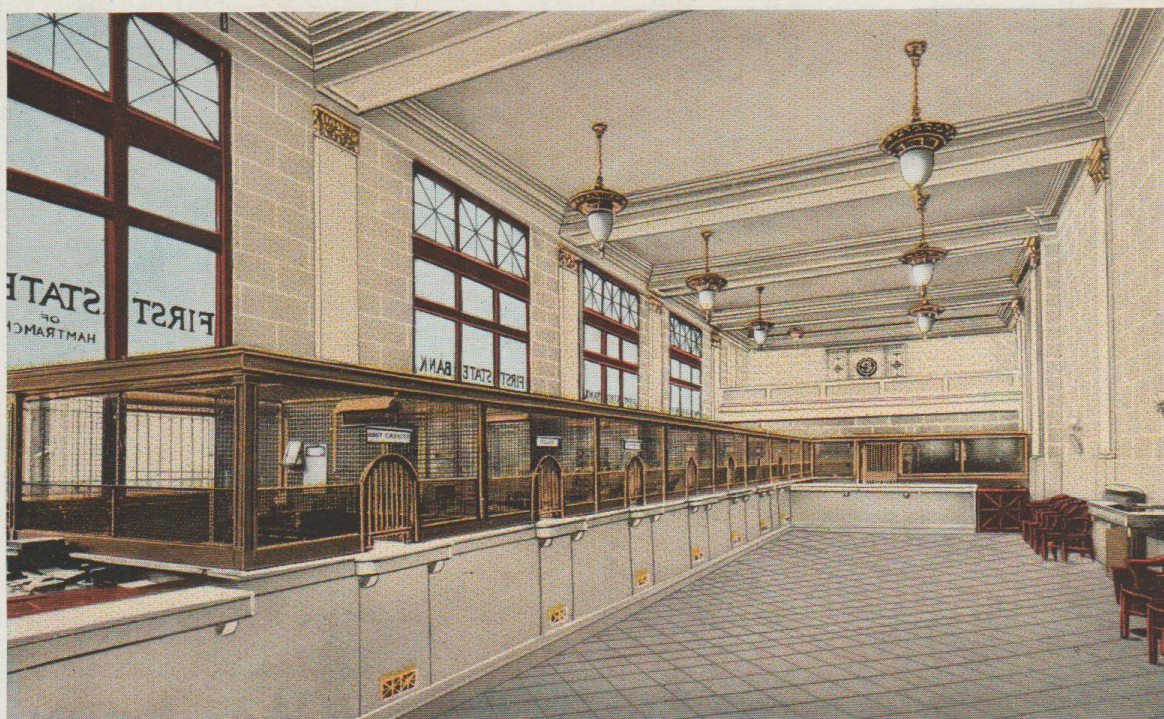

## **The Book of Ecclesiasticus Chapter 12 : verse 10**

“Never trust thine enemy: for like as iron rusteth, so is his wickedness.”

## **The Book of Saint Mark Chapter 16 : verse 9**

“Now when Jesus was risen early the first day of the week, he appeared first to Mary Magdalene, out of whom he had cast seven devils.”

## Why don't you ride an Iver Johnson?

**T**AKE the fresh air line to anywhere. No waiting, no crowding in stuffy street cars. No ginger exposure, no leg cramps. Get wherever you want to go—quickly, comfortably, economically.

And when you select a bicycle, naturally it will be an Iver Johnson—known to every American man and boy. For three generations the principles of Iver Johnson, master-maker of bicycles, have produced a line that has been the popular choice of riders everywhere. Iver Johnson Bicycles pedal with less effort, run easier, rust later, and last longer than all others. Ask the Iver Johnson agent in your town.

### Built like a bridge

One of the greatest features of the Iver Johnson Bicycle is the truss-bridge construction—as originated and built by us. "Built like a suspension bridge." The truss-bridge frame assures absolute rigidity, preventing give and sway of the frame during fast pedaling, going up hills, or through sand. No lost power is lost.

### Made doubly strong

The high carbon, seamless steel tubing used in the frame and forks of this bicycle has a tensile strength of 90,000 pounds to the square inch! Pick cranks, fork ends, handle-bar stems, seat posts, chains and other parts are made of drop forgings. Drop-forging compresses the steel

into compact form, eliminates flaws, and adds to the strength.

The two-piece crank set makes pedaling "easy as walking." Perfectly balanced, accurately aligned, holding true to adjustment, this two-piece crank set outlasts all others.

Colors! Ivory-Black, Copper-Bronze, Pale Blue, Iver Johnson Blue, and Maroon with five coats of enamel—lustrous and lasting.

### The Iver Johnson Velocipede

Built like the Iver Johnson Bicycle. Drop forgings. Cup-and-cone automatic ball bearings, full one-inch rubber cushion tires. The handbrake, instant cutting, and most lasting velocipede made. Three sizes. Choice of two colors—red or blue.

Buy from an Iver Johnson agent. Let him help you select the model for your purpose and pocketbook. Then you'll be sure to get your money's worth and will be treated fairly. If there is no Iver Johnson agent near you, write us. We will send you the name and location of nearest agent.

### Free bicycle catalog "B"

Illustrates and describes various models for men, women, boys and girls. Gives prices and important information you need before buying any bicycle. Write for it now.

Just your look here at girl!

Where you see this window display—a happy lot, waiting for an Iver Johnson Bicycle—that's the place to buy your bicycle.

## FOR DEALERS a golden opportunity

The bicycle has come back to stay. More and more is it being recognized as the most, most convenient, healthful and economical method of transportation. Thousands are being sold.

And when a man is considering a bicycle, he naturally thinks first of the Iver Johnson. That's the bicycle you can push and make money on.

The Iver Johnson proposition is a big business—indeed. Get in touch with us at once. We want to see you—so that we can help you to work with us without restriction.

A golden opportunity awaits our agents in each exclusive territory. Good territories are open to such dealers who want to help supply the increasing demand for Iver Johnson Bicycles and Velocipedes.

Write us at once—today for Dealer Plans. Use the coupon below. Fill it out and send it now before it slips your mind.

# IVER JOHNSON BICYCLES

**MACMILLAN'S  
BICYCLE.**

This machine, invented in 1839 by Kirkpatrick Macmillan of Courthill, Dumfriesshire, marks the first step in the development of the bicycle from the hobby horse. The example shown is probably a copy made about 1860.
